Reference Letter – Educeptis Africa Limited

To Whom It May Concern,

I am pleased to write this reference letter for

Mr. Wisdom Isaac Oku and Educeptis Africa Limited,

whom I have known for **approximately fourteen months** in my capacity as **a paying customer and active user of the Educeptis Africa platform**.

I enrolled on the Educeptis platform in early 2026, seeking supplementary academic support and career guidance beyond what my institution provided. From my very first interaction with the platform and its founder, I was struck by the professionalism, responsiveness, and genuine commitment to student success that defined the Educeptis experience. Mr. Wisdom Isaac Oku demonstrated exceptional reliability, every course, tutoring session, and mentorship engagement was delivered as promised, on time, and to a high standard. His accountability was equally impressive; on the one occasion I raised a concern about content quality, it was addressed within 24 hours with a personal follow-up. His work ethic is evident in the platform's continued improvement, features and resources are regularly updated, and students are actively consulted for feedback. In terms of prudence and business management, Mr. Oku has clearly built Educeptis with long-term sustainability in mind: the pricing is fair and accessible to students, the educator verification process instils genuine trust, and the platform's focus on connecting academic learning with practical career outcomes sets it apart from anything else available to Nigerian students today.

Through my interactions with Mr. Oku and conversations within the Educeptis community, it is abundantly clear that his vision for this platform extends far beyond its current form. He speaks with conviction and strategic clarity about scaling Educeptis to serve students across all of Nigeria's tertiary institutions, and ultimately across the African continent. He is not driven merely by profit he is driven by a deeply personal understanding of the barriers Nigerian students face, having lived those barriers himself. I have personally witnessed how the platform has grown and evolved within the time I have been a user, and I have no doubt that with the right financial backing, Mr. Oku has both the vision and the discipline to transform Educeptis into Africa's premier educational and career ecosystem. This grant would be a direct investment in a platform that is already changing lives including mine.

Based on my interactions and experience with **Mr. Wisdom Isaac Oku and Educeptis Africa Limited**, I fully support their application for the **Jerry Eze Foundation**

Entrepreneurship Grant. I believe they possess the passion, capability, and discipline required to utilize the grant effectively and responsibly.
